

VISION TEST REPORT*

YOUR VISION RESULTS

You may need eye glasses to help you see in the distance and to read. It is also possible that your poor vision is related to your family history of eye health conditions. Many vision loss problems related to these conditions are preventable if detected early. Please discuss these conditions with your eye doctor at your next appointment.

Wear glasses

Diabetes

Seasonal allergies

Vision insurance Y N

Wear contacts

Glaucoma

Dry / Itchy eye

Eye exam in last 2 years Y N

WHAT'S NEXT?

optomap® *Special Offer*

Present this coupon to an optomap® provider listed above when purchasing your optomap® to receive a digital copy of your own retina emailed to you. View your image with FREE optomap® Image Viewing software at www.optomap.com.

The optomap® Retinal Exam is a quick and comfortable procedure which utilizes advanced, high-definition laser imaging and allows you and your eye doctor to immediately see a digital image of your retina (back of the eye) for early detection of eye and systemic health concerns. (This coupon has no monetary or sale value.)

Ask for a demonstration of Transitions® lenses

And see for yourself how Transitions lenses protect your eyes so you can see better today and tomorrow. **Transitions**
